CONTENTS

Tectonophysics Volume 178

Special issue on Rift Zones in the Continental Crust of Europe—Geophysical, Geological and Geochemical Evidence: Oslo-Horn Graben (edited by E.-R. Neumann)

Preface VII

Skagerrak Graben—the offshore continuation of the Oslo Graben
Ro, H.E., Stuevold, L.M., Faleide, J.I. and Myhre, A.M. (Oslo, Norway) 1

The Oslo Rift—its evolution on the basis of geological and geophysical observations
Ro, H.E., Larsson, F.R., Kinck, J.J. and Husebye, E.S. (Oslo, Norway) 11

The Horn Graben, and its relationship to the Oslo Graben and the Danish Basin
Vejbæk, O.V. (Copenhagen, Denmark) 29

Cataclastic rocks along the Nesodden Fault, Oslo Region, Norway: a reactivated Precambrian shear zone
Swensson, E. (Oslo, Norway) 51

Age relations among Oslo Rift magmatic rocks: implications for tectonic and magmatic modelling
Sundvoll, B., Neumann, E.-R., Larsen, B.T. and Tuen, E. (Oslo, Norway) 67

A mildly depleted upper mantle beneath southeast Norway: evidence from basalts in the Permo-Carboniferous Oslo Rift
Neumann, E.-R., Sundvoll, B. (Oslo, Norway) and Øverli, P.E. (Stavanger, Norway) 89

Metallogeny and lead isotope data from the Oslo Paleorift
Bjørlykke, A. (Oslo, Norway), Ihlen, P.M. and Olerud, S. (Trondheim, Norway) 109

Research Papers

Vertical crustal movements along the East Coast, North America, from historic and late Holocene sea level data
Gornitz, V. (New York, N.Y., U.S.A.) and Seeber, L. (Palisades, N.Y., U.S.A.) 127

Relations between thrust belt evolution, grain-scale deformation, and metamorphic processes: Cape Smith Belt, northern Canada
Lucas, S.B. (Ottawa, Ont., Canada) 151

Major geological features and lateral variation of crustal structure in southern New England
Kafka, A.L. and Skehan, S.J., J.W. (Weston, Mass., U.S.A.) 183

Pre-folding magnetization reconfirmed for the Late Ordovician–Early Silurian Dunn Point volcanics, Nova Scotia
Johnson, R.J.E. and Van der Voo, R. (Ann Arbor, Mich., U.S.A.) 193

Magnetic susceptibility of rocks in the Nutbush Creek ductile shear zone, North Carolina
Mimms, Ch.V.M., Powell, C.A. (Chapel Hill, N.C., U.S.A.) and Ellwood, B.B. (Arlington, Tex., U.S.A.) 207

Magnetic fabric implications for the relationships between deformation mode and grain growth in slates from the Borrowdale Volcanic Group in the English Lake District
Henry, B. (Saint-Maur, France) 225

A palaeomagnetic study of Apennine thrusts, Italy: Monte Maiella and Monte Raparo
Jackson, K.C. (London, Great Britain) 231

Deep crustal structure of the northern North Sea Viking Graben: results from deep reflection seismic and gravity data
Fichler, C. and Hospers, J. (Trondheim, Norway) 241

Estimation of in situ stresses by evaluation of time-dependent strain recovery of KTB drill cores (extended abstract)
Wolter, K.E. (Windischeschenbach, F.R.G.) and Berckhemer, H. (Frankfurt, F.R.G.) 255

The Havelange deep well and the 1978 Famenne seismic data (Condroz, Belgium)
Graulich, J.M., Vandenberghe, N. and Hance, L. (Brussels, Belgium) 259

The industrial exploitation of geothermal resources in Europe
Batchelor, A.S. (Falmouth, Cornwall, England) and Garnish, J.D. (Brussels, Belgium) 269

Main features of hydrogeodynamic earthquake precursors
Kissin, I.G. and Grinevsky, A.O. (Moscow, U.S.S.R.) 277

Seismicity of the Aegean and surrounding area
Papazachos, B.C. (Thessaloniki, Greece) 287

Structural interpretation and tectonic evolution of a part of the Najd Shear Zone (Saudi Arabia) using Landsat thematic-mapper data
Duncan, I.J., Rivard, B., Arvidson, R.E. and Sultan, M. (St. Louis, Mo., U.S.A.) 309

Gravity field, deep-seismic sounding and crust–mantle structure over the Cuddapah basin and Dhawar Craton of India
Verma, R.K. and Satyanarayana, Y. (Dhanbad, India) 337

Stress field in the continental part of China derived from temporal variations of seismic activity
Zhao, Z.X., Oike, K., Matsumura, K. (Kyoto, Japan) and Ishikawa, Y. (Nagano, Japan) 357

Fractal analysis applied to cataclastic rocks
Zhao, Z.Y., Wang, Y. and Liu, X.H. (Beijing, China) 373
Development of microboudinage: an estimate of changing differential stress with increasing strain
Masuda, T., Shibutani, T., Kuriyama, M. and Igarashi, T. (Shizuoka, Japan) 379

Errata 389
